

## WIM COLLABORATORIES

**WIM COLLABORATORIES** are a powerful way for women to grow in their leadership with a faith-forward perspective alongside other like-minded women. These peer groups include leadership training coupled with the opportunity to tap into the perspectives of women from diverse backgrounds to work through their business challenges and goals.

Modeled after highly effective executive peer groups, now women of all leadership levels have access to a peer group designed just for them.

### HOW IT WORKS

- Each group is limited to 12 women to maximize participation and learning.
- Collaboratories meet monthly for 2 1/2 hours over a 12-month period.
- Leadership training is based on biblical examples and principles with practical application for today's work challenges.
- "Tough Nut" discussions provide access to wise counsel for approaching goals, challenges and important decisions.
- Accountability, feedback, coaching and encouragement are built in to support each woman's growth.
- Quarterly touch base meetings support progress and growth.
- Facilitators have extensive and diverse leadership experience and are highly skilled trainers and coaches.

### BENEFITS

The benefits you can expect from participating in a WIM COLLABORATORY include:

- Accelerated growth in leadership, communication, strategic thinking, decision making and team building skills.
- Supportive community of female leaders from diverse backgrounds.
- Access to a national network of resources, community and events.
